PROFILE

VISION

"We Strive hard every day to create Leopard the nation's most respected & customer- focused Service brand."

MISSION

To provide customer 24/7 the most compelling service experience with safety and cost effectiveness.

CORE VALUES

- CUSTOMER FOCUS
- 24/7 CUSTOMER SERVICES
- EMPOWERMENT and TEAM SPIRIT
- INNOVATION and CHALLENGE

Stepping into the industry as a crane rental service portal, Leopard Equipment and Engineers has advanced in leaps and bounds to earn its recognition as a multifaceted crane company that offers crane equipment, machinery and engineering services to target the needs of industries, construction companies and civil projects. From renting and selling construction equipment and machinery spare parts to erecting industrial sheds, we aim to fulfill our client's needs with utmost precision. In addition, we work in tandem with the police force to rescue victims of accidents, natural disasters and emergencies.

PROJECTS

Highway projects

Mining

Custom crane and heavy transport work

Bridge work

Railroad grade construction

Site development

Airport construction

Heavy civil mechanical maintenance projects

DIRECTOR

GANESH LAVANDE

Ganesh Lavande is the brainchild behind Leopard. Born and raised in Maharashtra, Ganesh was always interested in the workings of crane machinery and equipment. To increase his understanding of the industry, Ganesh undertook training in crane operations and maintenance following which he tapped his business acumen at an early age to set up the company in 2007. Along with his wife and director of the company, Deepali Lavande, Ganesh has successfully established a reputed crane service organization that accurately strikes the balance between customer service, Industry needs and employee welfare.
